MEMORANDUM FOR Commander, 1st BCT, 10th MTN, (b)(1) Iraq

SUBJECT: AR 15-6 Informal Investigation Concerning the Fatal Shooting of a Local National (LN)

1. On 12 October 2005, I was appointed as the AR 15-6 Investigating Officer (IO) for the events surrounding the shooting that led to the death of one LN and injuries to other LN. I have conducted a thorough investigation of the circumstances surrounding this incident. My observations, conclusions, and recommendations are provided in the following format: facts, findings, and recommendations.

2. FACTS.

A. On 12 October 2005, Barrier Teams A & C from 4-1 MiTT CAY lead by IS was conducting barrier emplacement in support of the Division polling site (b)(1). The patrol consisted of 2x M114s, 1x HEMMT, eleven U.S. personnel and 1x Iraqi Army (IA) patrol vehicle. 1SG (b)(6) was the NCOIC and informed the static IA checkpoint 300 meters west of the cordon, that Teams A and C were in the area. SSG (b)(6) was the senior NCO. Additionally, one IA squad consisting of 10 personnel accompanied Barrier Team A & C.

B. Teams A & C emplaced barriers from 2000 to 2140 at vic (b)(1). The barrier emplacement process took 10 to 15 minutes. Teams A & C set up "T" shaped security, emplacing two blocking positions consisting of one M114 to the west and the other M114 to the east. The HEMMT was located near the Iraqi Polling site on a side street within the cordon. Iraqi Army personnel were pulling security at the drop off point for the barriers. The IA also set up two TCP's at the eastern and western corners of the area, 300 meters from M114s.

C. The incident occurred at approximately 1221150CT05 (see enclosure A, BCT Blue-2 Report). Civilian traffic was being directed by the Iraqi Army to head in the opposite direction of the barrier emplacement onto the north/south road near the position. The white Volkswagen Passat bypassed the Iraqi Army checkpoint and headed east toward Team C, vehicle 5A-33. Team C's gunner used the laser pointer to warn the white Passat to stop. The vehicle turned off its headlights but continued to move towards Team C. Verbal orders in English and Arabic were issued to the white Passat over the Team C vehicle intercom, the

(b)(2)Low

SUBJECT: AR 15-6 Informal Investigation Concerning the Fatal Shooting of a Local National (LN)

vehicle driver ignored these warnings. The first warning shot was fired by SSG (b)(6) into the air. The vehicle then turned on its headlights and proceeded towards Team C. The second warning shot was fired in the direction of the vehicle on the ground. The white Passat continued and PFC (b)(6) along with SSG (b)(6) fired 5 shots total into the engine block and then into the windshield of the vehicle. The white Passat rolled to a stop. One local national (passenger) sustained a gunshot wound to his left arm and was taken to hospital after being evaluated by PFC (b)(6) (medic). The other local national (passenger) was treated by Corporal (b)(6) (medic) but eventually died of wounds to his face and chest. The dead body was put into a body bag and was turned over to Iraqi Police. Team C took pictures and documented the evidence of the encounter. The white Passat was turned over to the IPs. Team C then collapsed the cordon and moved to next site. Shortly after they arrived at the next polling site they were directed to return to write statements.

3. FINDINGS. I find that the engagement and killing of the local national was in accordance with the current Theater Rules of Engagement (ROE), as stated in APPENDIX I (CONSOLIDATED ROE) TO ANNEX E (RULES OF ENGAGEMENT) TO (b)(2)Low TO (b)(2)Low SSG (b)(6) SSG (b)(6) and PFC (b)(6) identified a hostile act and responded with an escalation of force to eliminate the threat. The driver of the vehicle, for undetermined reasons, chose to ignore all warnings given.

4. RECOMMENDATIONS. The following recommendations are put into Issue, Discussion and Recommendation format:

Issue: Emplace barriers during non-curfew hours

Discussion: Emplacing barriers during daylight or non-curfew hours of the day adds to the complexity of the mission. The patrol leader of this mission needs to consider that civilian traffic will be an issue, especially when some of these barrier emplacements involve redirecting traffic or shutting down a lane of traffic.

one IA approached the vehicle to take the passenger out than another IA to drag the driver out to the curve on the side away from the car. CPT (b)(6) started to treat the driver while the passenger was being watched by an IA. I got on the radio to call higher to inform them of the situation. At that time the other mitt team arrived from the other side to assist. PFC (b)(6) treated the passenger from my hummer. I was trying to talk to higher and kept assessing the situation on the ground making sure that I was documenting all the details of the event. The driver was pronounced dead and we were going to put him in an ambulance but there was already a patient in it. Then we got a IA truck ready to take him. But he was dead we got a body bag and gave him to the IP's along with the vehicle. The walking wounded walk to the hospital that was close by when all this was accomplished including the pictures we mounted up and headed toward our next polling site nothing follows. 9. I, (b)(6), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

I was in the turret of SSG (b)(6) M1114. A white Volkswagen Passat Passed through a checkpoint. It proceeded past where all other vehicles either turned off to the left or right, or they turned around, towards my location. After that point I started to make hand gestures and to stop the vehicles while using my laser pointer. It continued at a steady speed towards my location. I continued to use my laser pointer at the driver, but he continued to proceed towards my location. Around 100 meter SSG (b)(6) shot a warning shot and the driver flashed his head lights and continued at the same speed. SSG (b)(6) again shot another warning shot and he continued towards my location, then PFC (b)(6) and SSG (b)(6) engaged to disable the vehicle and then he still proceeded and I then seen 1 round impact through the windshield and the driver stooped to the side and the passenger ducted down, and the vehicle stopped.

Someone called for the Medic. The passenger raised his hands over the dashboard. An interpreter then shouted at the 2 individuals to exit the vehicle. The Cpl (b)(6) then arrived at our location. Then the passenger of the vehicle got out of the vehicle and the Iraqi Army pushed him to the side. I visually scanned the vehicle and noticed fluid draining from the vehicle and the driver was not moving. At that time someone shouted to get the driver out and I believe Sgt (b)(6) had the Iraqi Army personnel drag the driver out of the vehicle to the sidewalk where Sgt (b)(6) and Cpl (b)(6) began giving Aid to the driver. After a few minutes the other medic PFC (b)(6) came to the location and started to give me treatment to the passenger of the vehicle. After that I continued to pull security and nothing else follows.

I distinctly heard two shots fired within a few seconds of each other sounding like warning shots. Shortly after I heard a lot of shots fired together. I heard them ^(U.S. soldiers) yelling and ran to the scene to see a vehicle that had been shot. Then the vehicle was checked and the local nationals were removed and began treatment. Nothing follows
